SUMMARY

Experienced IT professional and Full Stack Developer with expertise in MERN stack, Next.js and Wordpress. Skilled in REST API development, payment gateway integration, and managing Microsoft ecosystems and Cisco networks.

EXPERIENCE

Full Stack Developer   **Vancouver, CA**
Freelance   May 2022 – Present

- Developed full-stack **MERN (Mongo db, expressjs, reactjs, nodejs)** applications.
- Built dynamic **Next.js** applications with server-side rendering and static site generation.
- Utilized **Html, Css, Sass, JavaScript** for front-end development.
- Developed and managed **custom WordPress themes and plugins** to meet client needs.
- Created **Laravel projects**, delivering robust back-end functionality.
- Developed and maintained **REST APIs** for smooth data exchange between frontend and backend.
- Used **Git** for version control systems for project collaboration and management.
- Integrated third-party services such as **Stripe** and **PayPal** for payment processing.

It System Support Specialist   **Istanbul, Turkiye**
Hitit Computer   April 2014 – April 2022

- Worked in a 24x7 rotation to address critical issues via **ServiceNow**, ensuring continuous support for network, security, and server-related events/alerts/issues.
- Managed **Azure** and **Microsoft Office 365** portal.
- Conducted and maintained Microsoft ecosystems such as **Windows Server** (Active Directory, Group Policy, Remote Desktop Service, Distributed File System) 2016, Exchange, and SharePoint.
- Configured and administered **Cisco routers**, **F5 load balancers**, and **firewalls** (Cisco, SonicWall), ensuring optimal network performance and security.
- Performed network monitoring using tools such as **SolarWinds**, **Nagios**, and **PRTG.**
- Developed and maintained a continuous integration system using **Jenkins**.
- Provided **technical support** and training to employees on software and hardware, including software installation, operating system configuration, and issue troubleshooting.
- Utilized **SQL** scripts to extract and manipulate data from databases.

Datacenter Technician   **Istanbul, Turkiye**
Turkcell Superonline   March 2013 – April 2014

- Responded to network incidents in a 24/7 data center, troubleshooting and resolving issues related to **Fortinet, Cisco routers**, **switches**, and **firewalls**.
- Troubleshot **Layer 1** and **Layer 2** network issues, ensuring optimal connectivity and performance.
- Configured and monitored network switching and routing protocols, ensuring compliance with **TCP/IP** standards and improving response times.
- Managed **VPN** and **firewall** configurations for secure remote access and data protection across the enterprise network.
- Continuously **monitored** Turkcell's network infrastructure using network monitoring tools (**Solarwinds**, **Nagios**, **Dynatrace, PRTG, DCIM**), including routers, switches (**Cisco**), firewalls (**Cisco, Sonicwall)**, servers (Windows, Linux), and other networking devices.
